Education

VIT Bhopal University

B.Tech., Computer Science

Bhopal, MP

Expected May 2027 – CGPA: 8.86/10

Kendriya Vidyalaya

12th (CBSE) – 84.2%

Kanpur, UP

Jul 2022

Kendriya Vidyalaya

10th (CBSE) – 90.8%

Kanpur, UP

Jul 2020

Projects

EmoCare – AI Mental Health Chatbot | Python, Streamlit, Gemini 2.5 Flash, TextBlob, Pandas Nov 2024 - Dec 2024

- Developed an AI-powered mental health support chatbot using **NLP, Google Gemini 2.5 Flash, and TextBlob** to provide empathetic, context-aware conversations.
- Implemented **5-level sentiment analysis** using **TextBlob** to detect user sentiment and provide sentiment-based coping strategies and wellness suggestions.
- Engineered a Streamlit application with **4+ aspects and 2 mental health support resources**, including real-time chat, mood tracking, session summaries, and conversation history.

KrishiMadad – AI-Based Crop Disease Detection Platform | Python, TensorFlow, CNN, Flask Jul 2025 - Dec 2025

- Created an AI-based crop disease detection system using **CNN** to classify **38 plant disease categories** from the PlantVillage dataset.
- Built a Flask web application for real-time leaf image upload, preprocessing, and disease prediction with **88% validation accuracy**.
- Integrated **4 key features** including weather updates, agricultural news, multilingual support, and voice assistance.

SafeHer – Women’s Satefy Web Application | React.js, TypeScript, Node.js, Express.js, JWT May 2026 - Jul 2026

- Developed a **full-stack women’s safety web application** with **JWT-based authentication**, user profile management, and trusted emergency contact management.
- Built **3+ core safety functionalities** – **journey management, SOS alert, and incident reporting** modules through **RESTful APIs**, enabling users to track journeys and respond quickly during emergencies.
- Designed a **responsive dashboard** featuring **journey history**, secure user workflows, and a **modular, scalable architecture** for easy feature expansion.

Technical Skills

Languages: Java, C++, Python, SQL, JavaScript

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js, Flask, REST APIs, JWT

ML & AI: TensorFlow, CNN, NLP, Textblob, Pandas

Tools: Git, Github, VS Code, Google Colab

Certifications

- Introduction to Machine Learning – NPTEL (IIT Madras)
- Bits and Bytes of Computer Networking – Coursera
- Microsoft Azure Fundamentals – Microsoft
- IBM Generative AI – IBM

Extra-Curricular Activities

iCreate Club | Core Team Member

- Volunteered in organizing **10+ technical workshops** and **15+ campus events**.
- Managed registrations and participant engagement for events with a cumulative attendance of **500+ students**.
